## 1. INTRODUCTION

Page Margins should be 2.8cm left and right, and 2.54cm top and bottom. The main paper starts at the second page and should be written in two columns with width 7.5cm each and distance 0.4cm between them.

Normal style is in Myriad Pro, 11, plain, single spacing and no spacing before or after paragraphs. New paragraphs should start with indentation 0.4 cm.

For section names use Heading 1 style: Myriad Pro, 11, bold, all caps. Spacing should be 12 points before and 6 points after.

## 2. ABOUT FIGURES

### 2.1 Figure size and legend

Figures should be centered in the column. Figures that span across two columns should be avoided unless they need to be displayed in a wider area.

**Fig.1. Figure legend (photo by D. Hookk)**

The figure legend should be placed below the figure using 9point bold fonts. Permission from the copyright owner(s) must be included and evident.

### 2.2 Subsections

Use Heading 2 style for subsections: Myriad Pro, 11, italics. Spacing should be 12 points before and 6 points after. Try to avoid subsections without necessity.

## 3. TRANSLATION FROM/TO RUSSIAN

Every issue of Virtual Archaeology e-journal must be presented in English and in Russian.

Because of this reason we kindly ask authors, who are not able themselves to submit materials in 2 languages simultaneously, to use possibility of professional translation offered by ADIT and spend reasonable money for these purposes, i.e. 10 Euros per page of an article.
